Dear Ricky,

On behalf of the California Department of Veterans Affairs, I would like to extend our deepest gratitude to you, your family and others for making your Rat Pack Ricky Veterans Day Week kickoff concert a rousing success.

Your dedication and appreciation for California's veterans – your father among them – came through during the show.

The veterans, residents and staff at our Veterans Homes of California, along with staff, thoroughly enjoyed the show. Staff at the homes told us that the veterans were snapping their fingers and tapping their feet to your talents. The songs of the 1950s and 1960s clearly resonated with them.

Our staff members praised your accommodating nature while working with you to make this project.

You were a big hit on all fronts!

Thank you once again, and we hope for an encore performance soon.

Sincerely,
